

Light: Spanninga Nomad

Spanninga Nomad dynamo USB charger.

The [Spanninga Nomad](https://spanninga.com/product/nomad/) (<https://spanninga.com/product/nomad/>) is, by far, the cheapest light and USB charger combo. It has a small form factor, with the USB plug hidden on the side of the lamp. The Spanninga LED has a lower 40 lux output than the competition (compared to the B&M 90 lux and AXA 70 lux).
