

## Basil Commuter Carrier for OEM with integrated Tracefy IoT solution

In cooperation with Massload, Spanninga and ourselves, Basil developed a commuter carrier with the option to add a Tracefy smart box, a beautiful Spanninga integrated rearlight and many other cool features. It's the first E-bike IoT solution for OEM integrated in the carrier.

*At the Taipei cycle show last March still a concept and as from now available as a prototype and **ready to order!** A sample will be showed at the Tracefy booth.*
